TagTrans®

Barcode – 1D und 2D Imager (QR-Code, etc.)

RFID: LF, HF, UHF – Read/Write-Electronic

BlueTooth - Communication > 100m

USB Interface

Inductive charger

Housing IP67 und 

Very robust design, IP67, low weight, long-life battery, wide variety of designs, all according to customer requirements.

Why DATATRONIC?

We manufacture the TagTrans product line according to customer requirements. Powerful firmware enables adaptation to customer applications, editing, and formatting of the collected data directly in TagTrans before it is sent to your application.

DATATRONIC has been working with AutoID and IoT technologies for more than 40 years. We are happy to share our know-how and experience with you.

Please do not hesitate to contact us.
